MODISH Easter Apparel

New Fashions of Alluring Beauty In Dresses for Easter

Easter marks the real beginning of Spring—the awakening season. The season of birds and flowers and green grass, when the whole world "dresses up." The spirit is caught by everyone and with it comes the inevitable desire for new apparel. Everyone wants to be in tune with the bright, new environment.

A veritable flood of Easter modes has been pouring into our women's and misses' ready-to-wear section, and we invite you to see all the new things, but we want you particularly to see

The New Georgette Frocks

They almost defy description. Not because they're so frilly and fancy—no. But, rather, because they're lacking in gaudy fixings and exaggerated effects. They're truly artistic and demonstrate their beauty the moment you wear them.

Lovely models fashioned in plain colored or printed georgette, or georgette combined with taffeta or soft rich satins. They display graceful drape effects, tunics, peplum effects or the straight loose styles, with a loose belt at the waist. The collars, sleeves and belts, or washes, are very artistic in design. Many of these dresses are made more attractive by the clever use of beads and embroidery. As to colors, there is any tint or shade you may desire. Priced \$114.50 to \$32.50

Excellent Showing of

Women's and Misses' Suits at \$59.50

For the regular daily wear and business use, the suit is an important garment. Its utility for every exigency of the day is met with a smile, for the suit always carries with it an air of newness and style that appeals to the American woman.

Our showings of suits at this moderate price is particularly pleasing. They are made of serge, gabardine, tricot and pique twill; they insure good service. Their styles are of the most recent modes, which favor tailored, blouse and box coat effects; many are shown with fancy vests, tight sleeves, some with belts others with one button fastening at throat. The skirts are long and narrow, finished with belt. The strictly tailored models are finished with braid and button trimmings, while some of the more dressy ones are trimmed with a touch of hand embroidery.

The colors most popular are rookite, tan, navy, black and black and white checks.

Handsome

Brocade Ribbons For Vests and Bags

These new ribbons are the climax of silk designing and weaving. Nowhere can you find more elaborate and richly designed ribbons. They come wide enough so that one length is sufficient for a vest. The designs are reproductions of high art tapestry woven with gold and silver thread. Only a small quantity is required to make a vest. Priced a yard, \$22.00 Other grades in tapestry and broche at 85c to \$3.00 yard.
